

Cottonwood Heights

Weekly Update for June 25-July 8, 2017

City Manager

1. Got the newsletter sent off to the printer and caught up on a lot of emails after the vacation. Already working on the August newsletter, but not before getting the promotional plan together for BVDays.
2. Busy posting updated stories from July newsletter to the city website.
3. Writing posts to promote BVDays and Annie.
4. Spent most of the week responding to complaints and compliments regarding fire response from July 4. Most callers and social media commenters were very upset, calling for an outright ban on all fireworks in the city.
5. Working with Ann to develop and expand promotion of BVDays.
6. Updated electronic lobby messages.

Police

1. Three officers were interviewed Monday, offer letters are expected later this week.
2. The PD is applying for grants to purchase a 3D crime scene diagram machine called the Pharaoh.

Administrative Services

1. The parade float continues to rack up awards in each parade that it enters. Some claim that it is due to the good looking float drivers, others claim that it's the Youth Council participants.
2. Annie play practice is entering the final weeks of practice. Staff is invited to join the Producers Preview on July 27th for the unveiling.

Community and Economic Development

1. The Planning Commission met on July 5th. They voted to forward a positive recommendation to the city council for a zone change at 2856 E Bengal Blvd.
2. Alpha Coffee opened for business with a ribbon cutting ceremony. Drop in to support local business owners Carl and Lori Churchill at 7260 Racquet Club Dr.

Engineering

1. A LIDAR will be completed for the Top of World Area. Once this is complete we will create a slope analysis of the hillside. This will help in evaluating Bonneville Shoreline Alignments, future studies, our SLEDS ordinance and slope stability analysis.

2. We submitted 10 applications for the Corridor Preservation Grant for the Fort Union Project last week.
